

# ZENITH Roller Furling Mainsail

## RF Mainsail Standards

1. Zenith Vertical leech battens
2. UV clew cover
3. Bag and sail ties
4. Leech line
5. Telltales
6. Integral Clew Block

## Available Options

- Sail Numbers (Blue, Black, Green, Red)
- Insignia (Blue, Black, Green, Red)
- Shape Stripes (Blue, Black, Green, Red)

Webbed head and tack for smooth furling

**ZENITH Vertical Battens** add Critical roach for increased performance

(shaded area represents sail area gained vs. conventional Roller Furling mainsail)

UV leech tape

Extra wide, high strength Leech tabling provides support when sail is reefed

Larger radial patches distribute load evenly

UV shield covers clew

Integral Clew Block allows for maximum Sail Area

New Hylas 46 with ZENITH Mainsail  
Note close proximity of roach to backstay.

Reef Locator Stripes to indicate reefing position for optimum shape and performance.

All seams are Seam Taped as well as stitched

High strength tabling provides support when sail is reefed
